Genesis Primary Care

Your Genesis Primary Care provider is your trusted partner in health

Genesis Primary Care (GPC) providers take the time to get to know you — not just your medical history, but you as a whole person. That relationship helps keep you healthy, catch concerns early, and guide you every step of the way. When you need additional care, your provider helps connect you with the right specialists and coordinates your care and partners to ensure you get the right care for you.

Genesis Primary Care providers are family medicine physicians, internal medicine physicians and advanced practice providers including nurse practitioners and physician assistants.

Genesis Primary Care providers help you when you're sick, perform wellness exams, treat chronic diseases, and provide care for the following, among many other services:

- Back strains and sprains
- Minor surgeries such as skin tag removal
- Cough, colds, fever
- Urinary tract infections
- High blood pressure
- Diabetes
- Order testing such as X-rays and lab work

Make the call on your health

Before you go to an Emergency Department (ED) or Urgent Care for your minor health concern, consider calling your Genesis Primary Care (GPC) provider first. Calling may save you the trip, cost you less money, and get you back to feeling better quickly. You may be able to make an appointment the same day you call.

If you go to the ED or have a stay in the hospital, it's a good idea to call your GPC provider afterward. Follow-up care can help you on your path to recovery and may prevent further health problems.

If you are experiencing an emergency, call 9-1-1.

Manage your healthcare in MyChart

GPC providers use MyChart, an electronic medical record that helps you manage your healthcare. You can communicate with your provider, have video visits, reorder prescriptions, schedule appointments, view test results, and much more — all from your fingertips on your personal device when it's convenient for you.
