Network with like-minded women and be inspired as we come together to celebrate local businesswomen.

Colleagues in Commerce is a three-part series structured to expose our members to local industry, culture and provide Chamber members with new interactions.

This month, we invite you to join us and celebrate local women owned businesses in honor of **#WomensSmallBusinessMonth**

During this event, we will gather and highlight our extraordinary community of women owned businesses and hear the stories of three empowering women!
