

Muskingum County Farm Bureau

Invites you to become a Business Partner

The Farm Bureau Board of Trustees is reaching out to our community leaders and businesses in an effort to forge a stronger partnership between farmers and consumers and at the same time continue to grow our organization. Farm Bureau is a non-profit membership organization that is volunteer based. Many people join our organization because they care about how their food is produced and because they want it to continue to be raised locally. Our farmers need the support of the community and our community needs our local farmers. By joining Farm Bureau we can enhance that relationship by promoting your business to our 1900 member families.

For an investment of only \$360.....your business will receive the following:

- Up to 5 Ohio Farm Bureau Memberships to give to five employees and / or associates of your choice. Additional memberships are available at the rate of \$72 / membership.
- Employee members will have access to a full array of Farm Bureau benefits, Grow & Know events, activities, resources, and leadership development & training opportunities. Check them all out at ofb.org/group-membership/

- Membership within Farm Bureau affords your employees a better understanding of the challenges and opportunities small businesses, agriculture and rural communities face today through our programs, events and print publications.

Image Computer Solutions Completes Major IT Upgrade at Zanesville Metropolitan Housing Authority

Image Computer Solutions (ICS) has completed a major IT upgrade at Zanesville Metropolitan Housing Authority (ZMHA). ICS provided new networking equipment, new PC's, a new server and a new wireless solution. All software at ZMHA was upgraded at this time as well including to a Windows Operating System, Windows Server and Office 365. The most unique facet of this project was the fact that ZMHA have transitioned to a hosted server. That means that Image Computer Solutions houses the ZMHA server in our data center and can maintain/support it without onsite time at the client. The users simply login and access the server via a remote desktop connection. This provides faster response time as well as power and space savings at the ZMHA offices. In addition this adds an extra layer of security as the ICS data center is protected under a 24/7 monitored security system with battery backup power protection.

The IT upgrades at Zanesville Metropolitan Housing Authority are now complete and were a great success.

ICS offers free evaluations for any size business or organization. We offer many services to assist our small and medium size business clients including networking and server evaluations/installations, business consulting, web site design, development and hosting, backup solutions, off-site backup and disaster recovery, video IP based security systems, VOIP phone systems, software and hardware troubleshooting, co-location servers, and many other services.
