

# Providing Effective and Efficient Care for Everyone

Quality Care Partners' (QCP) Utilization Management nursing staff works closely with the patient, claims administrator, and providers to ensure efficient use of health plan benefits. QCP's concurrent approach allows for negotiations with providers before care, directing patients to Centers of Excellence, and coordinating benefits to enhance utilization and improve care, which results in reducing the expense of healthcare spend.

## › OUR UTILIZATION MANAGEMENT TEAM OFFERS SUPPORT THROUGH:

Medical necessity review/notification of upcoming services.

Prospective and concurrent review of services.

Coordination of transition of care and discharge planning.

Retrospective review of healthcare services.

We work to identify individuals who may benefit from Case Management intervention based on diagnosis or services being requested and ensure they receive the care and support they need through their healthcare journey.

# AEP Announces Generation Rate JUMPING FROM \$.0749/KWH TO \$.1184478/KWH JUNE 1ST

The Public Utilities Commission of Ohio is recommending those businesses buying electric supply from AEP to quickly shop for a new lowest cost third party supplier

The rate increase is completely avoidable by getting a much lower electric fixed supply rate through trusted Zanesville – Muskingum Chamber Member RD Energy.

## ARE THE SAVINGS WORTH IT?

<b>\$2500</b>	50,000 kwh/year usage can see savings up to \$2500 in one year
<b>\$5000</b>	100,000 kwh/year usage can see savings up to \$5000 in one year
<b>\$13,000</b>	250,000 kwh/year usage can see savings up to \$13,000 in one year
<b>\$26,000</b>	500,000 kwh/year usage can see savings up to \$26,000 in one year

**THE HIGHER THE USAGE THE HIGHER THE SAVINGS**
